Re: Petition Under 37 CFR 1.10(c) and (e) and  
Invoking Extraordinary Circumstances  
Pursuant to Notice of November 20, 2001  
And 1251 OG 55  
Our ref: NPSP 010349

Hon. Director:

1. Pursuant to 37 CFR 1.10(c), there will be a discrepancy between the filing date accorded by the Office to the correspondence received herewith and the date of deposit shown by the "date-in" on the "Express Mail" mailing label. This Petition for the filing date shown on the date-in of the mailing label is filed promptly after the undersigned became aware that the Office will accord a filing date other than the USPS deposit date. The number of the mailing label was placed on the correspondence. A true copy of the mailing label showing the date-in is attached.

2. Pursuant to 37 CFR 1.10(e), in addition to the above, a copy of the undersigned's Express Mail Log for the date of deposit, November 19, 2001, showing notation of the enclosed is enclosed.

December 6, 2001

3. Pursuant to the Notice, this may be considered a Petition under 37 CFR 1.183. Please charge any necessary fee to deposit account 12-0425.

Respectfully submitted,

  
William R. Evans

**WARNING:** Certificate of mailing (first class) or facsimile transmission procedures of 37 C.F.R. 1.8 cannot be used to obtain a date of mailing or transmission for this correspondence.

**\*WARNING:** Each paper or fee filed by "Express Mail" must have the number of the "Express Mail" mailing label placed thereon prior to mailing. 37 C.F.R. 1.10(b).

*"Since the filing of correspondence under § 1.10 without the Express Mail mailing label thereon is an oversight that can be avoided by the exercise of reasonable care, requests for waiver of this requirement will not be granted on petition." Each paper letter or communication relating to an international application during the international stage for which a date of filing is to be obtained as of the date of mailing must have its own certificate and the "Express Mail" label number as a part thereof or attached thereto. When, as here, the certification is presented on a separate sheet, that sheet must (1) be signed and (2) fully identify and be securely attached to the paper or fee it accompanies. Identification should include the serial number and filing date of the application as well as the type of paper being filed, e.g. complete application, specification and drawings, responses to rejection or refusal, notice of appeal, etc. If the serial number of the application is not known, the identification should include at least the name of the inventor(s) and the title of the invention.

The label number need not be placed on each page. It should, however, be placed on the first page of each separate document, such as, a new application, amendment, assignment, and transmittal letter or a fee, along with the certificate of mailing by "Express Mail". Although the label number may be on checks, such a practice is not required. In order not to deface formal drawings it is suggested that the label number be placed on the back of each formal drawing or the drawings be accompanied by a set of informal drawings on which the label number is placed.
